HOUSE MUSIC / MIAMI SOUL

# A Miami *point of view.*

Jaziel is a Miami-based DJ focused on House music, with a musical identity that brings together the percussion of Afro House and the rhythmic warmth of Latin House.

His experience spans nightlife, clubs, venues and private events. Working from the energy in front of him, he builds a progression that can move from a refined, immersive atmosphere into a more energetic dance floor.

Each set balances preparation with instinct: a response to the space, the hour and the people sharing the room. His versatility brings flexibility to the booth, with House at the center.

# La Crème *Groove Miami*

La Crème Groove Miami is Jaziel's personal event concept, currently in development. It is being shaped as an extension of his musical identity: parties and experiences built around House music, atmosphere and the connection between people.

The vision is a setting where thoughtful music selection and a welcoming energy bring the room together, with the groove as the common thread.
